Established January 20, 1911  
SUBSCRIPTION RATE  
Per Year, \$2.00  
Entered at Bard, Imperial county, California, as second class mail.  
Published Fridays.

## ARIZONA SENTINEL

Yuma Southwest  
Established November 1870 by Jas. M. Barney and Judge Wm. J. Berry. Purchased 1875 by John W. Dorrington, who relinquished to W. H. Shorey on July 1, 1911. Published for 44 years without missing an issue.  
SUBSCRIPTION RATE  
Per Year, \$2.00  
Entered at Yuma, Yuma county, Arizona, as second class mail.  
Published Thursdays.

## IS CLIFTON TO BE THE SCENE OF SECOND LUDLOW ACT?

Investigation has disclosed not only that strikebreakers for the Clifton mining district have been imported to Duncan, Ariz., but many of these strikebreakers are armed with shotguns, as stated in a wire to the Yuma Daily Examiner yesterday, C. W. Harris, adjutant general of the Arizona national guard, repeated his former statement, and added that the mine officials were sending agents to various points to accompany the strikebreakers to Duncan.

The recent announcement of Adjutant General Harris that the Arizona, Shannon and Detroit copper mining companies, whose miners in the Clifton district went out on strike last September, were importing strikebreakers was denied in reports from Duncan.

Mr. Harris also said that such a denial had been expected, but that he had substantial proof of such activities.

## BIG INCREASE NOTED IN EXPORTS TO MEXICO

Exports to Mexico took a big jump during the week of November 21 to 27, and consisted chiefly of food and machinery, according to figures made public today by border ports of entry. War munitions excluded, the exports totaled 396 carloads, in which there were thirty carloads of machinery, 80 carloads of sugar and coffee, and 40 carloads of flour.

Munitions shipped across the border for the forces of the de facto government included 1,150 rifles, 210,000 rounds of cartridges and 20 carloads of miscellaneous equipment.

## PACIFIC STEAMERS TO BE USED IN TRADE WITH LONDON

Announcement was made yesterday at New York that five large steamers flying the American flag have been transferred from the Pacific coast business and will shortly enter the New York to London trade to assist in relieving the export freight congestion at that port.

The steamers include three of those recently purchased by the Atlantic Transport Line, a subsidiary of the International Mercantile Ma-

rine company. They are the Siberia and Manchuria, both en route now from the Pacific and due here about December 14, and the Mongolia, expected here about December 27. The vessels were bought from the Pacific Mail Steamship company.

The two other steamers that will take their place in the regular London to New York service are the Korea and the Kroonland. The last named steamer had been in the New York-San Francisco tourist carrying trade.

## STERILIZATION OF ALL DENTAL INSTRUMENTS

The possibility of the transmission of disease through the medium of dental instruments has probably been considered by every occupant of the dentist's chair. It constitutes one of the fears with which a patient is possessed the moment he adjusts himself for a period of treatment.

Authoritative instances of the conveyance of contagion in this manner are extremely rare, its frequency not being determinable, although few will deny the possibilities of occurrences of this character.

The list of organisms which may contaminate the dental instruments is formidable, but this does not mean that the diseases of which they are the causative factors necessarily ensue if they are accidentally carried into the mouth. Their presence upon dental instruments, is, however, an indication of what the surgeons call poor technique. In surgery poor technique is usually attended with disastrous results, but in dentistry errors of this character may produce no ill effects.

In spite of this relative freedom from danger, dentists are determined that their methods shall equal the highest standards.

Cleanliness should be the primary consideration in all dental operations. The white coat of the operator represents more than comfort; it is the symbol of neatness. The dentist who works with unclean instruments, who provides soiled linen, or who places a common drinking glass before his patient, should be judged accordingly. Fortunately the members of the profession who do these things are criticized and suffer from loss of patronage, so that there is a strong tendency on the part of dentists to maintain their surroundings above reproach.

With the sterilization of instruments some carelessness may manifest itself, partly owing to the fact that many instruments are injured by such processes, are too complicated to be treated in this manner, or that the public is not competent to detect errors of technique.

However, the public is rapidly learning the value of aseptic methods and also the proper equipment is now found in nearly all dental offices.

Thorough studies of the sterilization process have recently been made for dentists by the United States Public Health Service, at the request of various dental associations throughout the country, and in a recent publication of that Service, detailed information will be found as to the accepted methods for the sterilization of all dental instruments.

## OPTIMISTIC REPORTS INDICATE BIG XMAS TRADE IN SOUTHWEST

Following the announcement from Phoenix that Arizona trade conditions show a marked upward trend, better than for many years, comes substantially the same optimistic reports from every section of the United States.

Los Angeles, San Francisco, Portland, Denver, Kansas City and New York Associated Press messages to the Yuma Daily Examiner tell the same story.

LOS ANGELES, Dec. 1.—Wholesale and retail merchants throughout Southern California reported today better trade conditions than in any holiday period for practically ten years. Advertising space, a good index of business conditions, is being used in greater volume than heretofore, according to newspaper managers in various sections of the state.

DENVER, Dec. 1.—Wholesale and industrial firms report business conditions throughout the Rocky Mountain states exceptionally prosperous with money easy and collections improved over the last few years. Abundant crops, a rising market for silver and zinc, and good prices for other metals have resulted in enlarged activities in farming and mining districts. The bankers report money easy and deposits on the increase. Wholesalers and retailers confidently predict an increased holiday trade.

PORTLAND, Ore., Dec. 1.—Portland retail merchants report an unusually heavy holiday trade for this time of the year and the wholesalers are beginning to feel the improvement in all trade. An improvement in the lumber industry and a large agricultural yield in Oregon is held to be the chief reasons for better trade conditions.

SAN FRANCISCO, Dec. 1.—The prospects for record-breaking Christmas trade in San Francisco and other cities of California have caused the increasing optimism of merchants to be expressed in reports by trade organizations that indicate general business for 1915 will show an increase of a third over last year's figures.

In the retail trade many lines so far this year have broken all records; others reported gradually increasing business with record Christmas sales.

KANSAS CITY, Dec. 1.—Bumper crops and increased outputs of mines and factories, all marketed at war prices, have left a profit in Kansas City trade territory which will make the Christmas shopping season just opening the most prosperous known in very many years, according to E. M. Clendenen, secretary of the Kansas City Commercial Club.

Throughout Kansas, Oklahoma, Arkansas, Southern Nebraska and Southern Iowa and Western Missouri messages of unusual prosperity have stirred Kansas City merchants to enlarge stocks in preparation for heavy buying.

NEW YORK, Dec. 1.—Merchants here say Americans have more money to spend for Christmas this year than in any holiday season since 1906. The big stores are preparing for a record trade and wholesale houses are unable to fill orders in many lines. This is attributed to a rush of buyers from other cities to replenish depleted stocks.

L. S. Pais, secretary of the Wholesale and Retail Merchants' Association, said today that the merchants of New York never have known better times.

## PRETTY WEDDING AT THE STAG CAFE LAST NIGHT

One of the swiftest events of the year took place at the Stag Cafe dining rooms last night following the wedding of Willard R. Ammons, a popular reclamation man, and Miss Olive E. Alexander, one of Yuma valley's most charming daughters. Rev. John Malzregor, at the Yuma Catholic church.

## POOR PENMANSHIP GIVES HIM A SCARE

Oscar H. Willis, the pioneer "Yuma Express" man, who carries the Gadsden mail between the Yuma postoffice and the reclamation service railroad, is having a scary time of it; all because the postoffice clerk, like many other good people when in a hurry, writes his a's and o's so much alike that one cannot distinguish one from the other. The tag on the mail sack causes the trouble.

"Taint a bit like 'Gadsden,'" he explained in his Missourian dialect, to an Examiner reporter. "It looks a whole lot more like 'God's den.' Now, if it was 'God's delight,' 'God's gift,' or 'God's promise,' I wouldn't be afraid of it. But 'God's den' has an ugly heathenish sound, and I wish the cuss would write better."

On this account, the expressman doesn't like to touch the mail sack, and handles it with a hay hook. He is always glad when he has it safely out of his hands and in the care of Conductor Phillips, of the Yuma-Gadsden train.

## VISITOR FROM ITALY DELIGHTED WITH YUMA

From Sunny Italy, charming Miss Angeline Sivori has arrived in Yuma to visit the Gandolfo family, neighbors for generations back in Genoa, Italy, the birthplace of Columbus, discoverer of America. The young lady was escorted from New York to Yuma by Frank Gandolfo, who made a special trip for the purpose at the request of his father, John Gandolfo, Sr., who was recently advised from Italy that Miss Sivori was enroute to America and Yuma, the home of her friends.

Of course, Miss Sivori does not yet talk English, but in her own language she declares that she is delighted with what she has seen since leaving New York, and Yuma seems to her more charming than even her own sunny Italy.

Over in Italy they have automobiles like ours here, and consequently, being shown the Yuma valley in the big Gandolfo car only serves to remind her of home with new farm scenes, which to her are a novelty in some respects. It is quite possible that Miss Sivori will remain in Yuma.

## BACK GIVES OUT

Plenty of Yuma Readers Have This Experience

You tax the kidneys — overwork them — They can't keep up the continual strain.

The back may give out — it may ache and pain; Urinary troubles may set in. Don't wait any longer — take Doan's Kidney Pills.

Residents of this vicinity endorse them. Can Yuma people doubt the following evidence?

Mrs. A. Spann, 1646 Front St., San Diego, Cal., says: "Several years ago I suffered from backache and it steadily got worse. I also had trouble with the kidney secretions. I didn't sleep well and felt all tired out. Doan's Kidney Pills strengthened my kidneys, removed the pains in my back and cured the other kidney disorders. A few doses of Doan's Kidney Pills once in a while keep my kidneys in good shape."

Price 50c at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills — the same that Mrs. Spann had. Foster-Milburn Co., Props., Buffalo, N. Y. — Adv.

The small storehouse belonging to the U. S. Reclamation Service, which has for several years been located at Colorado Siding, has been moved to the end of the Reclamation Service railroad where the wagon bridge crosses the main canal, and will be fitted up for use as a depot.

The emperor of Japan resembles Napoleon in stature. The emperor of Germany resembles him in the matter of the geographical position of his army in Russia in November. — Louisville Courier-Journal.

The poor old war is being stretched to cover the conditions in the Philippines, also. — St. Louis Globe.

## NOTES ON NORTHERN YUMA COUNTY SCHOOLS

On Wednesday, November 24th, the county superintendent of schools visited the school at Wenden. This school does not have a large enrollment this year, but Miss Gertrude Hamilton, the teacher, is doing excellent work with the children. Miss Hamilton is a graduate of Denver University and is teaching in Wenden for her second year.

The deep well on the Wenden school grounds is now 777 feet deep, and is furnishing water for the town. State aid has been promised to make it possible to deepen this well to ascertain if there is a possibility of artesian water for Wenden.

On Friday a visit was made to Harqua Hala school where Miss Beulah Sturgeon is teaching her second year. Miss Sturgeon is a graduate of the State Normal school at Tempe, Ariz. Harqua Hala has purchased new furniture for the school and the interior is now very attractive. Miss Sturgeon sent some good exhibit work to the fair at Phoenix. Both Wenden and Harqua Hala will send work for our county exhibit at the time of the Yuma county institute, January 2, 4, and 4.

Mrs. Bess Elliott Thurston is now teaching at the Bill Williams school, No. 29. This is the second year of the existence of this school and is Mrs. Thurston's first year in the school.

Miss Evan Skinner is teaching her third year at Alamo, No. 18. Miss Skinner's earnest and efficient efforts are producing excellent results in the boys and girls of Alamo. The splendid work in sewing and construction work done by those children will be a part of the county exhibit.

The county superintendent will make a personal visit to the schools on the Bill Williams on the spring tour of inspection.

## OUR ROADS BUILT FOR PRESENT AND FUTURE

The preliminary work for the construction of the Warrenite road from Yuma to Somerton is already begun, and in ten days the road work will be in full swing. The cost of this modern 6-mile roadway will be \$220,000, and it covers the most thickly settled portion of Yuma county at the present time.

About \$40,000 dollars have been expended on a part of the Ocean-to-ocean highway, from Yuma eastward, and of the original bond issue of half a million dollars. Approximately \$240,000 yet remains for other Yuma county roads as per the original plans.

Upon the completion of these good roads, Yuma county will be in a fair way to claim title as the best paved county in the Southwest.

It is understood that the main artery of travel known as the ocean-to-ocean highway through Yuma county to the Maricopa line, will not be completed with the funds now on hand, but such a road will be later finished by the State of Arizona and will become a part of the system of state roads.

Yuma's half million dollars is being spent strictly on Yuma county roads and of such permanent material that the generations to come will have reason to praise the work of the present road boosters.

Yuma oranges are taking Los Angeles by storm. A second order for 15 boxes of "126" oranges was received from Jevne's today by the Yuma heights fruit ranch.

Some people are so eager to be on the right side that they will even take both sides. — Philadelphia Record.

A special medal should be struck in honor of the crown prince Frederick for the record shows that he has lived more times for his country than any man in the empire. — New Orleans States.

## LEGAL NOTICE

### NOTICE TO CREDITORS

Estate of Mae Symons, deceased. Notice is hereby given by the undersigned, O. C. Johnson, administrator of the estate of Mae Symons, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them, with the necessary vouchers, within four months after the first publication of this notice to the said O. C. Johnson, administrator, at his office at the Yuma Hardware company, on the west side of Main street, in the city of Yuma, the same being the place for the transaction of the business of said estate, in the said county of Yuma, State of Arizona.

O. C. JOHNSON, Administrator of the estate of Mae Symons, deceased.

Dated at Yuma, Arizona, this 13th day of November, 1915. — Sentinel four weeks, first publication, Nov. 19.

## POLITICS SHOULDN'T DAMAGE THE RELIGION

Why register a "kick" when the clergymen enter into political life, either to aspire after its legitimate "spoils" or work in its ranks for its work's sake.

If a man has a religion that he thinks his politics will soil, or political views which he fears will be damaged by coming into contact with his religion, then there is something wrong either with his religion or his politics; they ought to dwell together in perfect peace and unity—there should be no divorce between his vote and his prayer.

Saintliness does not consist in ringing superior to, but rather in keeping ourselves close down to it, the while we have to live upon the earth.

There is no ridding ourselves of responsibility.

## LIMITED PASSPORTS FOR PEACE PARTY

(Associated Press) WASHINGTON, Dec. 2.—Secretary of State Lansing has just announced that the members of the party planning to sail Saturday on Henry Ford's peace ship will not be given passports to belligerent countries, but only to the neutral states of Europe.

## SERBIA CRUSHES MONTENEGRO NEXT

(Associated Press) BERLIN, Dec. 2.—Having crushed the Serbian forces, the Central powers are now turning their attention on Montenegro, and today captured the towns of Plevlje and Jabuca.

## CHINA NOT ASKED TO JOIN THE ALLIES

(Associated Press) PEKING, Dec. 2.—The Chinese government today officially denied that it had considered the possibility of joining the Allies, or even that they had ever been asked to do so.

Judging from the disrespectful manner in which Senator Penrose spoke of the Trinity river, we conclude that he has given up the idea of lining Texas up in the Republican column in 1916. — Dallas Times-Herald.

It is understood that Santa Claus has ordered a bulletproof sleigh for use in Europe this Christmas. — Riverside Enterprise.

## Catarh and Colds To Be Rid of Relieved

Is a great achievement. Most people would be well and happy were it not for catarh. It is worth ten years of any one's life to learn how to get rid of catarh.

## PE-RU-NA

will show you, much quicker than any one could tell you, how to get rid of catarh.

THE PERUNA CO., Columbus, Ohio

Mrs. Emma Gannon, 107 E. South St., Kewanee, Ill., writes: "For fifteen years I had catarh of the head and stomach. I could hardly walk. My attention was called to 'The Ills of Life.' I read it through. Then bought a bottle of Peruna. I am entirely well now."

The Gadsden and Yuma ball teams will play in Yuma next Sunday, on the old grounds back of the courthouse. Danny Maddox states that the plan is to organize a baseball league composed of Yuma, Somerton, Valley Center and Gadsden.

It would seem to an unprejudiced observer that a ship is taking the same relative chances in trying to escape from a submarine that a belated citizen does in trying to get away from a hold-up artist. — Los Angeles Tribune.

As a woman grows older she realizes that a Good Provider is more important than the prince she may have been expecting. — A. M. Globe.

## ACKNOWLEDGING REPORT

The Examiner today received a 17-page typewritten report of the recent successful Yuma Indian Fair, containing a long list of Indian prize winners, which the Examiner has filed for future reference. The following letter accompanied the same:

Yuma Indian School, Calif. Yuma, Ariz., Dec. 1, '15.

Editor Yuma Examiner, Yuma, Arizona.

My Dear Mr. Shorey:

Am inclosing herewith a complete list of prize winners at our recent Indian fair, which you are at liberty to use wholly, or in part, if you care to make a news item. Thanking you for many courtesies of the past, I am

Very respectfully yours, LOSON L. ODLE, Superintendent.

## Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound and imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; it causes out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. 75c.

Take Hall's Family Pills for constipation.
